

Public consultation

1/23/2019

Public consultation open to all European manufacturers of T&D electrical equipment that apply SF6

23/01/2019 - 23/02/2019

Title

Public consultation open to all European manufacturers of T&D electrical equipment that apply SF6

Description

In view of the preparation of the revision of the EU Regulation for the use of F-gases (EU F-gas Regulation), T&D EUROPE, Europe's grid technology providers, launches a public consultation open to all European manufacturers of electrical transmission and distribution equipment that apply SF6. T&D EUROPE is committed to making its field expertise available to policy-makers, who will be defining proposals that could be implemented in the new F-Gas regulation, thereby significantly contributing to the final target of further SF6 emissions reductions in Europe.

The input received through this public consultation will contribute to the development of a common industry position on the use of SF6 in T&D electrical equipment.

That position will reflect a long-term vision for the use of SF6 in T&D electrical equipment.

Opening date

23/01/2019

Closing date

23/02/2019

Topics

SF6, Climate, Energy, T&D electrical equipment, HV Switchgear, MV switchgear, Generator circuit breakers

Target group(s)

Any European manufacturer that apply SF6 in T&D electrical equipment.

Objective of the consultation

The consultation aims at defining proposals which:

- *can be implemented in the new F-Gas regulation;*
- *achieve the goal of a significant reduction of SF6 emissions in Europe;*
- *foster T&D manufacturing and services industry in Europe*

The contributions from respondents shall be based on current knowledge and development status and anticipated future steps, considering technical and economic feasibility.

How to submit your contribution

1. The contributors have to register (see contact details)
2. The contributors have to sign an NDA with T&D Europe
3. The questionnaire (available only in English) shall be responded in English in due time

It will take about 30 minutes to answer the questionnaire.

Please note that to ensure a fair and transparent consultation process only responses received through the online questionnaire will be taken into account and included in the summary report.

The questionnaire has six sections:

1. Introduction and explanation how to fill
2. MV switchgear
3. HV switchgear
4. Generator Circuit Breakers
5. Other non-switching equipment
6. Explanations and guideline for drafting the answer.

To participate you are not obliged to fill in all items. Your opinion matters to us. Thank you very much for taking the time to contribute to this consultation.

How to register

The purpose of the registration is to identify all the participants in the synthesis and confirm he is European manufacturer.

To register the participant should send to one of the contacts below :

- Name, web page and Social address of the company.
- Number of manufacturing plants of T&D electrical equipment using SF6 in Europe.
If none, it cannot participate to the public consultation
- Number of units (using SF6) manufactured in Europe during last 5 years (2013-2017).
Select one of the following below:
 - a) less than 5 000 u.
 - b) from 5 000 to 50 000 u.
 - c) more than 50 000 u.

Additional information

ABOUT T&D EUROPE

T&D Europe is the European Association of the Electricity Transmission & Distribution Equipment and Services Industry, which members are the European National Associations representing the interests of the electricity transmission and distribution equipment manufacturing and derived solutions. The companies represented by T&D Europe account for a production worth over € 25 billion EUR, and employ over 200,000 people in Europe. Further information on T&D Europe can be found here: <http://www.tdeurope.org>

Results of consultation and next steps

T&D Europe is committed to providing feedback on consultations. An anonymized synthesis of responses from this consultation will be integrated in a future position paper from T&D Europe. Names of participants will be listed in the synthesis.
